

# gomobile.pro beta

## REAL leads...right NOW!

The hard part was arranging to be at the event. Don't forget to come back with qualified leads for all that effort. A list of who stopped by is NOT a list of qualified leads. Tap into this new way to connect at a live event:

- Attendees use smart phones & tablets to participate
- Manage leads as they occur on your own device
- Own a virtual tradeshow booth for before & after
- Get leads anywhere you are...not just in the booth
- Ask qualifying questions to discover the best leads
- In-booth prize giveaways for those who participate
- Full reporting on who looked at what and when

### Regular Mobile Listing...

is like a business card; necessary and basic. If you plan to attend the event and just hand out cards, this will do the trick for electronic business card exchange.

### Expo Pro Mobile Listing...

is how you conduct business at a live event. It helps line up the most qualified prospects so you spend time meeting people instead of managing leads. And attendees also have a way to learn more about your company wherever and whenever they feel like it.

### How to Get Mobile Pro Expo

It's simple. Once the event manager enters your basic information into the system you will automatically receive an email with details on how to login, pay for and build your Virtual Booth. And most importantly, you'll learn how to get your leads.

In case you don't get that email or just want to explore the tools, please visit [www.buysyevent.com](http://www.buysyevent.com). We're here to help and look forward to making sure you get the most out of your next live event!
